

Tanning Salons

PIU wants your tanning salon risks. This is a class that we are extremely competitive in, and want your submissions. Whether it's a current risk, a renewal, or a class of business you want to go after, PIU can help you place the risk with great coverage, and extremely good rates. Don't shy away from the franchise locations either. We write those just as well as the smaller operations. We would like Acord 125 & 126 and the Tanning salon supplemental. If you want us to quote the property, include Acord 140.

You'll be happy you submitted your tanning risk to PIU!
