Benefits

American Modern works with your customer to mutually determine the Agreed Value coverage of the auto, and insure it for that amount.

Included in every policy, this coverage helps pay to replace lost or stolen parts and accessories.

Included in every policy; handy if the car breaks down while your customer is out and about. Pays to policy limits to tow the car to a repair facility, or to have a professional fix the car at the breakdown site.

Your customer's premium is based on how often he drives the car. If he drives the car less, he pays less.

With this endorsement, your customer can take his car on a special trip, and the miles won't count toward his yearly mileage cap. Just add the endorsement to your customer's policy, and he's ready to go!

Customers only pay one flat rate for liability on all insured specialty autos.

Just like any other auto policy, we provide Bodily Injury Liability, Property Damage Liability, Uninsured Motorist, Collision, Comprehensive, and more. In required states, we also provide Medical Payments and Personal Injury Protection/No-Fault.
